**YouTube content creators can start earning money from their videos once they reach 1,000 subscribers and 4,000 watch hours** , but how much they make depends on several factors, including how much the advertiser pays and the number of views. on the video.

*The exact amount of income for 1000 subscribers on YouTube depends on a variety of factors, including the viewers' country, the types of videos being watched, and the type of ads that are running. On average, a YouTuber with 1000 subscribers will generate between \$1,000 and \$10,000 a year from ad revenue.*

👍 **Only 1 channel (T-Series) has surpassed 200 million subscribers.**

**Dislikes won't affect your viewership** (for now)Although the debate is far from over, creators can rest assured that their viewership won't be affected by swarms of dislikes.

*As of February 2023, 21 of the 50 channels listed primarily produce content in English while 16 primarily produce content in Hindi*
